PARTICIPANTS

The Seminar and outreach programs are opened for public, members of PERMI, lecturers, researchers, decision makers, practitioners, industries, related Association/NGOs and observers of microbiology.

GUIDELINE FOR ABSTRACT AND FULL PAPER SUBMISSION

Organizing Committee invites all participants to submit their abstract(s) and full paper(s). Participants intending to submit their abstract(s) **must fulfill registration form and payment** before 6th May 2011. Abstracts (for oral or poster presentations) submitted online only will be reviewed by the Scientific Committee. Abstracts submitted via fax or email will not be considered. Accepted abstracts will be announced via e-mail to the first author by May 20th 2011. You have to follow abstract submission guideline as described. Scientific Committee will not process incomplete abstracts. Full paper will be peer-reviewed and invited to publish in **Microbiology Indonesia (MI)** (DIKTI Accreditation level A", Print ISSN 1978-3477, online ISSN 2087-8575). Therefore, please write your manuscript and follow the Guideline of MI. Uninvited full papers for publication in MI will be published in a Proceeding on CD/DVD. For detail information, please visit: <http://www.isism-iums.com>

WELCOME ADDRESS

Dear colleagues,

On behalf of the organizing committee it is our great pleasure to invite you to attend the 4th International Seminar of Indonesian Society for Microbiology (ISISM). Outreach Programs on Food Safety 2011. The ISISM will cover all aspects of microbiology.

Participants are encouraged to submit their abstract(s) for oral/poster presentation to disseminate high quality research with outstanding results.

The objective of the 4th ISISM Outreach program are to disseminate recent advance in microbiological researches conducted by Indonesian and International experts, sharing ideas, and strengthening links between scientist and industrial sectors.

The IUMS-ISM Outreach Program on Food Safety is a special 3 days symposium which covers hot topic/issues on food safety delivered by the world class experts. The expected participants (limited to 100 people) are factory managers/quality control of food companies, lecturers and research scientist from Asia.

PROGRAM

The opening ceremony followed by plenary session delivered by three keynote speakers will be held together in the first day of the seminar. This session will then be followed by separate satellite symposia.

A. 4th INTERNATIONAL SEMINAR OF INDONESIAN SOCIETY FOR MICROBIOLOGY (4th ISISM) (June 23-24)

The program of ISISM will include oral presentation, poster presentation and exhibition.

There will be plenary and parallel sessions during the three days seminar. Keynote speeches will be delivered by National and International experts during the plenary sessions.

B. IUMS-ISM Outreach Program on Food Safety (June 22-24)

The programs will cover lectures and discussions with 11 world class experts from ICMF and IUMS. For detail please visit www.permi.or.id and www.iums.org

REGISTRATION FEE

Registration should be done before the seminar (see the guideline). The seminar fees are as follows:

Participants	Before May 15, 2011	After May 15, 2011
International Seminar of Indonesian Society for Microbiology
